April 2017

### Acceptable Usage Policy KS2 Children – Linked to 360Safe AUP Guidelines

This document is to provide some guidelines to ensure that you stay safe and act responsibly when using the computers. When we talk about ICT, we are talking about computers, laptops, iPads and everything else including cameras and other devices. By using ICT in school, you have agreed to follow these rules. These rules will be discussed with you as a class before you sign them. A copy of this will also be sent home to your parents.

If you have any questions, please ask your teacher.

- At all times, I will think before I click (especially when deleting or printing)
- When using the internet, I will think about the websites I am accessing
- If I find a website or image that is inappropriate, I will tell my teacher straight away
- When using information or pictures from websites, I will try and say which website it came from and if possible link back to the site
- When communicating online (in twitter, email etc) I will think about the words that I use and will not use words that may offend other people
- When communicating online, I will only use my first name and not share personal details such as my email address or phone number
- I understand that people online might not be who they say they are
- I will not look at other people's files or documents without their permission
- I will not logon using another person's account without their permission
- I know that the teachers can, and will, check the files and websites I have used
- I will take care when using the computers and transporting equipment around
- I will keep my usernames and passwords secure, but I understand I can share them with appropriate people, such as my parents or teachers
- I will not install any software or hardware (including memory sticks) without permission from a teacher
- I understand that if I am acting inappropriately then my parents may be informed.
